### ABOUT ME

Front-End Developer and AI Content Creator with 4+ years of combined experience in building responsive web applications and producing AI-powered digital content. Skilled in HTML, CSS, JavaScript, React, Tailwind CSS, WordPress, PHP, MySQL, Git, and modern AI tools. Experienced in translating Figma designs into pixel-perfect interfaces, integrating REST APIs, optimizing website performance and SEO, and creating high-converting AI-generated marketing content. Passionate about building digital experiences that combine clean code, usability, and creativity.

### SKILLS

| Front-End                                                                                                                                                                                | Backend                                                                                                                         | Development                                                                                                                                                                                                                         | Design & AI                                                                                                                                                                                                   |
